

How to Vote

The ImageCast Voting System in Cattaraugus County

1 Sign in at the Inspector Table.
If more than one district is voting at the pollsite, the Pollsite Coordinator can help you find your district.

2 The Inspector will give you a ballot and direct you to the voting booth.
You may also receive a privacy sleeve to shield your votes if desired.

3 There will be privacy booths at every site; as well as a sit down booth to accommodate a wheelchair or chair. This section also has a magnifying sheet if you are having a difficult time reading the ballot.

Fill in the voting square next to the candidate name you are selecting. Use only the marking pens provided. For a write-in vote, write the name in the box at the bottom of the column, under the selected office.

*** If you make a mistake on the ballot do not try to erase the mark. You must return the ballot to the Election Inspectors and ask for a new ballot.**

3a If you wish to use the Ballot Marking Device (BMD) to mark your ballot electronically, you can listen to the offices and candidates on headphones or read the ballot either enlarged or in contrast on the monitor and mark your answers with a keypad. There is also a sip & puff device available. After the ballot has been marked, it will print out and you will place it in the scanner to be counted with all the voted ballots.

4 When you are finished filling out the ballot, take your completed ballot to the Optical Scanner. Place either end of the ballot into the scanner. The LCD display will alert you to an over-vote. If you want to review the ballot or change your

ballot, press the Return button. If you want to vote the ballot, press the Cast button.

***Mark your ballot by completely darkening in the square next to your choice.**
*** If you have any questions regarding your ballot, please ask an election official for clarification.**

OFFICE	Supervisor (Vote for ONE)	Judge (Vote for ONE)	Councilman (Vote for any TWO)
